As you may well know, the AWMA Golden Empire Chapter is a non-profit organization of environmental professionals and people interested in good environmental stewardship serving Fresno, Kern, Kings, Madera, Merced, Stanislaus and Tulare counties. All proceeds from the Technical Conference fund our scholarship and educational grant program, which provides money to local schools and students to pursue science-related endeavors in the hope of preparing a new generation for environmental stewardship. The Golden Empire Chapter in 2023 awarded \$4,000 to Valley schools and students through this program. Without your generous support, we would be unable to maintain this level of funding for local schools and students.

Thank you for your consideration. We hope to see you on November 14 at the 2023 Technical Conference!
